## **SECTION I. The Structure and Intent of Your Life.**

There are four items of general interest that we want to take up here in Section I: A) Hemisphere and Quadrant Emphasis, B) Elements and Modes, C) The Ascendant and Midheaven, and D) The Conjunctions. These four categories give us an intelligent overview of how you structure personal experience and what you aim for in life. This general patterning gives us a context to understand the specific personal meaning of the material in Sections 2 through 11.

### **A. Hemisphere and Quadrant Emphasis**

The different areas of life are laid out in the horoscope by spatial territories called houses. These areas of life show interests and general involvements for each person. These areas can be grouped together for a vast overview of most basic inclinations of the person. The most useful general groupings of houses is into hemispheres and quadrants. Emphasis in a hemisphere or quadrant shows a particularly strong focus toward life from that perspective.

#### **1. Hemisphere**

The horoscope can be split into 2 equal parts, either horizontally (giving us the upper and lower hemispheres) or vertically (giving us the right and left hemispheres). The Upper Hemisphere shows the outer, more extroverted side of the personality, the Lower Hemisphere shows the more introverted and hidden side of the personality. In the Left Hemisphere planets are rising and this shows action. In the Right Hemisphere planets are setting and this shows reaction.

#### **Most Planets Above the Horizon**

You have the majority of your planets above the horizon showing that you have a need for contact with the outer world in order to feel fulfilled each day. You enjoy projects, achieving and a sense of accomplishment. Success for its own sake is more important than what security it might present to you.

#### **Most Planets Setting**

You have the majority of your planets on the western half (or right-hand side) of your chart. Your natural tendency is to seek others' approval and to question the probable outcome of an action before putting your first efforts forward.

#### **2. Quadrant**

The two ways of splitting the horoscope into hemispheres can be applied simultaneously giving us four quadrants. The **FIRST** is called the quadrant of personality. The **SECOND** is called the quadrant of the environment. The **THIRD** is called the quadrant of relationship. The **FOURTH** is called the quadrant of service.

#### **Most Planets in the Third Quadrant**

You have the majority of your planets in the third quadrant. You desire to relate and will seek out experiences that bring you in contact with people and increase your scope of information of others. This is your primary motivation in all activities. You want physical, emotional, or intellectual contact with others. This is your primary vehicle of personal development.

## B. Elements and Modes

The Elements and Modes show what we aim for in life. They show our broadest focus and in the most general sense, how we go about achieving our goals.

### 1. Elements

The four elements (fire, earth, air and water) are the most comprehensive inventory of the personality that we have. Everything in the universe including the human personality can be examined in terms of the four elements. FIRE is your basic enthusiastic urge, EARTH shows your concern for the material world, AIR is the element of abstract thought, WATER is your empathy impulse. Fire and earth are primitive and focus on the self. Air and water are derivative and focused on others. Fire and air are naturally extrovert, optimistic, active, and freedom oriented. Earth and water are basically introvert, pessimistic, passive, and security oriented.

#### Fire

You have no fire in your chart. Vitality and enthusiasm will never be problematic for you, nor will it be a focus. You may seem frail to others but when the time for activity arrives you have boundless energy. You remain a mystery to people around you even though they accept your peculiarities at face value.

#### Earth

You have an abundance of earth in your chart showing that you are a cautious and thorough person. You build material security in life. If, for any reason, this isn't happening you feel miserable. This can point to a problem of valuing the wrong things in life and chasing empty dreams. Ask yourself how much you really need and let it go at that. You can be an earnest and hard working person if over-acquisitiveness doesn't blind you.

#### Air

You have 30% of your chart in the air element. You vacillate between being very interested in people and ideas and needing time by yourself. Periodic isolation and an involvement with routine, commonplace activities that do not require innovation are relaxing for you. You need both spontaneous activities as well as predictable patterns in your life.

#### Water

You have 30% of your chart in the water element. The emotional content of your chart is so strong that it is never a neutral ingredient in your life. How you are able to integrate this quality of empathy into the rest of your personality traits will determine how well you will mingle with others. Learning good relationship skills early in life is very important to your proper adjustment and socialization to life and your culture.

### 2. Modes

The three modes are CARDINAL, FIXED, and MUTABLE. The modes of expression show how you act out your urges in the world. They represent your most basic responding mechanism toward all of life experience. The cardinal planets show direct expression in physical action, leadership ability and strength. The fixed mode planets in your chart show reaction, consistency, persistency, endurance and stubbornness. The mutable planets in your chart show synthesis, blending, malleableness, thought, forethought, debate and wisdom. The following statements show the way the three modes manifest in your life.

## Cardinal

You have an abundance of cardinal planets in your chart. You are very active. You are able to choose a direction and go your own way in life. You are stronger than most of the people you know and this gives you a natural desire for leadership. Be aware, you act impulsively and this can be either a strength or a weakness. Try to control your assertions so that you stay in harmony with your environment and you won't suffer from self-inflicted accidents or difficulties.

## Fixed

A tremendous amount of your chart is in the fixed mode. You have endurance. Whether a course of action is good or bad you are more likely to stay with it than change. The principle of inertia is with you. When you rest, you have real difficulty getting going. When you are in motion, you have real difficulty stopping or even changing directions (even slightly). People find you a loyal friend and a tenacious enemy.

## Mutable

You have 20% of your chart in the mutable mode. Your natural preference is to act or stay put when a circumstance of significance arises in your life. When important ingredients in your life are beyond your control you are capable of making deep and meaningful adjustments even though this is not your first choice.

### C. The Ascendant and Midheaven (Signs and Aspects)

#### 1. The Ascendant

The ascendant is symbolic of our relationship to our immediate environment. This is the point rising in the east when we are born. One manifestation of our immediate environment is our physical body. The physical environment includes our body, our surroundings and our emotional and mental states. Thus, the ascendant tells us how our inner core expresses itself, and how we take in information from others and the universe generally. The sign rising in your horoscope tells us the type of energy you are processing, the type of physical body that you have for doing the processing and the natural inclinations you have in the personal arena in life. The planets in aspect to your ascendant tell us the kind of energy and stamina you have as natural allies in life. The ascendant is opposite the seventh house cusp (the place where we meet others and the world). This axis (ascendant-descendant) is how we clarify ourselves through relationships. Planets in aspect to this axis indicate the types of people and the types of relationships we seek as well as how and why we seek them.

### AQUARIUS RISING

You have a striking and unusual personality and appearance. You express a human and humanistic quality that others admire. You have a charm and magnetism that affects others in a positive way. You seek opportunities to interact with others in a wholesome and elevating way. You are so interested in people, ideas and projects that others seldom recognize how glued in you are to a preselected agenda. Because you are interested in everything and have wide humanitarian qualities and concerns, people often underestimate your tenacity. Actually you are incredibly vigilant and loyal. Once you have selected a person or project in life, you can persevere regardless of the cost. You have a knack for doing the unexpected. You are so creative and original others never really know what to expect. Others are often attracted to your beauty.

### Mercury Trine the Ascendant

You seem to know just what to say to get your message across to others. You find yourself traveling in order to gain more knowledge. The highway of life for you is interesting and communicating your findings to others is part of the excitement. Intellectual expression in some form is necessary for you to keep learning and you are motivated to keep some form of mental improvement going in your life.

### Mars Sesquiquadrate the Ascendant

You get flashes of energy that can carry you away from your basic goals and tasks in life. You sometimes find unique solutions for long standing conflicts and are able to bring about rapid change. Your ability to stay with a project, quite often surprised others. Your vitality and temperament have an underlying erratic tone. Life isn't always easy but it is very exciting. Physical exercise is very helpful in feeling happy.

### Jupiter Square the Ascendant

Misplaced idealism and inflated expectations of life and of others can lead you in circles and away from your goals. You are lucky but need a consistent and realistic direction to have this count for something. Overindulgence can get you into trouble. Too much of anything, even the "good life", can get in the way of self-knowledge. Learn to be satisfied with what you have and you are successful. Learn to moderate your social life and you will find relationships more meaningful.

### Uranus Trine the Ascendant

Your creative spirit is very strong and in tune with your environment. You are able to respond with lightening speed to changes in circumstances. This skill is a critical adjunct to your inventiveness. At the same time, your ability to go your own way and call your own moves allows you to swim against the tide. You have a striking personality and inspire others to action through the strength of your vision. The originality of your insights gives you a unique gift for helping people and the breadth of your vision and your sense of timing is great for making money in the business world.

## 2. The Midheaven

The Midheaven is the high point in your chart. It indicates what you aspire for, what you see as your duty, and what authority and limits are about. Because of this basic meaning the Midheaven indicates how you live out your social station and what you do for your career. The point opposite the Midheaven is the fourth house cusp, referred to as the nadir, which is the indication of our roots, our heritage. This axis (Midheaven-Nadir) indicates the way we grow in life. The sign on the Midheaven shows our basic energy and approach toward dealing with the world. Planets in aspect to the Midheaven show qualities of our inner being that we wish to contribute to the world and that we wish to be fulfilled through our interaction with the outer world.

### SCORPIO MIDHEAVEN

You are fixed in your approach to handling your duties. In order to accomplish any task, your taste runs toward extreme methods. You are "all or nothing" in your general mode of operation. You may have periods of evaluating your commitments, but once a choice is made, you are loyal to people, causes, and your own perceptions. Your success comes through your intensity of focus.

### Sun Semi-Square Midheaven

You make your mark on the world and on others. You may have some struggles coming to terms with your responsibilities. This stumbling block may have to be confronted a few times before you get your direction of achievement clearly demarcated. You do make your way in life. Your personality is painted in bold colors.

### Moon Sextile Midheaven

You have an inner knowing as to what will happen in a group so you work well with the public. Your high ideals give you a universal connection with the culture that allows you access to the future. You are good at forecasting trends and this quality will help you in any job. You have a taste for working with large structures. This can translate to institutions, big business, or artistic and social issue-oriented lines of work.

### Pluto Sextile Midheaven

You are intense and insightful and these characteristics carry you far in career. You are very skilled at seeing what will work to bring two people or groups of people together. Your strength of character rests on your ability to see what will work.

### D. The Conjunctions.

A Conjunction occurs when two planets are in the same immediate area of the Zodiac. The conjunctions in your chart show central linkings of basic energies in your life. When one area (represented by a planet) expresses itself, it brings along the other area (represented by the other planet). When you are studying the rest of this printout of your life, keep in mind that linking of these energies is a central theme in your life and these areas should be studied together.

### Sun Conjunct Uranus

Your drives and motivations in life fluctuate between extremes. This Conjunction represents a very central focus of your life.

## SECTION II. The SUN - Your Ego Structure

The Sun is the center of the solar system. All life revolves around it within this sphere. In the same way, the ego is the center of personal identity and gives integration and continuity to individual experience. In this sense, it might be said that the Sun shows character. This is the fixed pillar at the center of the person around which all else circulates or revolves.

The sign placement of the Sun shows the center of the individual's basic character. The sign of the Sun is the most primary indicator of the forms of experience you are attracted to. Further, this most important placement shows how and why you are attracted to these experiences.

The house placement of the Sun sign shows the primary area of expression for the individual in life. There is a psychological, emotional, and physical significance to the house placement of the Sun. Aspects to the Sun show ways that the core of the personality are linked to other component elements in the individual's life. Aspects to the Sun have a deep and overriding significance in the life of the individual and are generally more important, more prominent than other aspects in the chart.

### SUN IN LIBRA

You are a good negotiator and a natural diplomat, always seeking harmony and always seeing other people's point of view. You have a love of beauty, are inspired by ideals, and have an especially strong sense of justice. You want your surroundings to reflect your vision of the world which is oriented to beauty, harmony and balance. You are so friendly and so diplomatic that you may seem to lack resolve to others. You see infinite shades of meaning to each issue and it appears as if you are inconsistent. Your life improves when you don't procrastinate and when you aren't afraid to tell people your point of view even when you know they don't want to hear it. Be more decisive.

#### *Sun in 8th house*

You tend to be withdrawn and secretive. Because of your interest in activity behind the scenes you may find your natural place in life working on something which requires large amounts of time alone. Your self-picture moves in extremes from blunt and dull to layer upon layer of infinitely rich textures.

#### *Sun in 8th house Afflicted*

You may be slowed down in life through secret jealousies. Your secrecy will stop others from being able to help you because they don't know what you want or need; you don't tell them. Try to overcome paranoid/distrustful feelings for others. These feelings stop you from being able to see who your true friends are. Consequently, you will often make poor choices on who to be close to.

### SUN IS IN HARD ASPECT TO YOUR MOON

You have a tendency to get in your own way. You have material and emotional needs that cut against the grain of what you try to accomplish for ego satisfaction. You have some real success in life but it can be short-lived or fluctuating until the time that you have eked out some reasonable compromise between your inner drives and your mechanisms and techniques for accomplishing your goals. When you have difficulty mastering sufficient physical vitality or enthusiasm for a goal you have chosen, it is time to get to the roots of the inner conflict that is stealing your energy.

## SUN SQUARE YOUR MOON

Your energy and vitality fluctuate. You are driven to accomplish but forward progress is frustrated until your inner self-dissatisfaction is resolved. Getting a clear picture of your direction in life requires you to make some-short term sacrifices in order to make long-term gains.

## SUN CONJUNCT URANUS

You are freedom-loving. You are original and independent. You look for unusual manners of expression and are drawn to experiences that bring out your inventiveness. When you act, you do so quickly, engaging your whole being. You have a deep willfulness and are capable of holding onto a point of view or a line of action against the odds, common sense, and logic; you may change your mind or direction in life, but nobody else will change it for you. When you do make a change you do so abruptly and there can be great upheaval in your life.

## SUN IS IN HARD ASPECT TO YOUR NEPTUNE

You have a deeply secretive side to your nature. You are romantic, humanitarian and idealistic. You suffer from an excess of emotion and exaggerated sensitivity to anything that goes wrong in life. Unfortunately, something going wrong can mean merely that it didn't live up to your expectations which can be quite inflated. Your life becomes a dynamic, unstoppable force for good once you accomplish two things: one, you must become self disciplined (i.e. ascetic) enough that you overcome self-indulgence in every form, and two, you must know life by knowing, really knowing, yourself.

## SUN SEMI-SQUARE YOUR NEPTUNE

Your idealism can lead to deception and self-deception. Further, you are vulnerable to being led to the wrong conclusions by other people's suggestions. It takes a good amount of mental discipline to make sure that your ideals and suspicions don't overrun your common sense.

## **SECTION III. The MOON - Your Personal Life.**

The Moon inscribes a circle around the earth. It moves more swiftly than other astronomical bodies and thus represents day to day and moment to moment movements, adjustments and preoccupations. The Moon is the symbol of the personal life which is molded and shaped by our environment, by events, and by social and familial expectations. Further, the Moon shows our responses to life which are based on our past habits, experiences, our heritage and our individual and collective cravings.

The sign placement of the Moon shows how you project yourself to the general public, how the instinctive and imaginative component of your mind operates, how you express your feelings and your most general experiences of your family and mother.

The house placement of the Moon shows how and where you make day to day adjustments. Further, it shows the things you are most interested in dealing with in order to gain emotional equilibrium.

The aspects of the Moon show the general characteristics of the personality that are emphasized. Planets in aspect to the Moon are symbolic of qualities in the personality that are used instinctively, habitually and with a high degree of versatility.

### **MOON IN CAPRICORN**

You are ambitious and cautious, a practical builder. You know how to hold to a position once you have taken it. Others find you a good leader and good at applying preexisting principles. What you lack in imagination you make up for in diligence and reliability. Others don't always trust you though because you are underhandedly competitive. This comes from your dualistic model of the universe where if one person is winning someone else must lose. The fuel for this outlook comes from a broodish emotional nature and limited outlook on what you feel you have coming. Try to be less self-demanding and more sympathetic to yourself and others in your life.

#### *Moon in 12th house*

You tend to be very impressionable and this can make you gloomy. Stability comes through synthesis. The need for self-understanding can force you to gather lots of experience. You may appear as an unrealistic dreamer to people who do not know you very well. People who are close to you see the long distance planning and the concern that you go through. You work best if you are able to get blocks of time by yourself on a regular basis.

#### *Moon in 12th house Unafflicted*

A powerful spiritual ideal inside of you will have to come out and manifest in some aspect of your day-to-day life. This longing for the transcendent life strengthens as you get older. You have the ability to bond with others over practical issues of home, family, and career. You instinctively know when to withdraw.

### **MOON IN ASPECT TO THE SUN**

Your Moon in aspect to your Sun is a central feature of your life. This aspect is the primary indicator of your basic energy. We talked about this aspect in the Section II. The Sun - Your Ego Structure.

#### MOON IS IN SOFT ASPECT TO YOUR VENUS

You have a naturally pleasing manner. You seem to know what people expect and how to present yourself. Women often play a key role in your life because you really understand them instinctively. You are a gentle person preferring diplomacy to confrontation. Your grace and elegance puts others at ease.

#### MOON SEXTILE YOUR VENUS

You have a special understanding and appreciation for the gentle, receptive and harmony seeking aspect of life. Because of this quality every relationship contains some happiness and satisfaction for you. Marriage is a special mechanism for growth. You have a good imagination, good artistic skills, and empathy; all of which keeps you attuned to the public at large, who in turn generally supports you. Your ease in social relationships, natural charm, and graciousness gives a pleasantness to the way you present yourself.

#### MOON IS IN SOFT ASPECT TO YOUR MARS

#### MOON TRINE YOUR MARS

Strong, driving passions move you toward your goals. You have very directed habits leading you forward in life. Your emotions are so focused toward what you want that you let personal happiness depend on accomplishment.

#### MOON IS IN SOFT ASPECT TO YOUR SATURN

You are cautious and a careful planner. You lay a firm foundation in all that you do. Your instincts and habits are basically conservative. You are satisfied with slow progress. You apply the principles of consistency and patience to your benefit.

#### MOON TRINE YOUR SATURN

You do what seems right to you regardless of what others think. But what others think gets factored into your overall reality assessment which in turn determines what you do. You are accomplished, dutiful and disciplined in your daily habits. This leads to self-sacrifice without any great fanfare. You are talented but self-satisfied and content which keeps you aiming at the center of the road. This conservatism protects you from extremes of action so you may not accomplish much but you are always sufficiently productive to get rewarded for your efforts.

#### MOON IS IN SOFT ASPECT TO YOUR PLUTO

A few significant dreams and a few significant people greatly impact your emotional outlook and unconscious life habits. You make absolute judgments emotionally and unconsciously as to who will affect you and who will not. You come before the general public at some time in your life, even if briefly. You have a powerful affect on others, passing along to them the deepest residue of your life experience. You develop deep emotional attachments and do not easily relinquish or alter them. You are a loyal friend once you have made a commitment.

## MOON TRINE YOUR PLUTO

Compulsive and driven, you accomplish much through your ability to keep trying different approaches to a problem until it is solved. People either like you or dislike you intensely, as you are consciously focused and emotionally riveting, forcing people to choose sides. Your emotional instincts operate in a symbolic realm, conferring on you great skill in organizing patterns of thoughts as well as groups of people. You are very skillful at aligning the positive influences in your life.

## SECTION IV. MERCURY - Your Mental Life.

Mercury is the closest planet to the Sun. From the viewpoint of the earth it seems to dart back and forth across the face of the Sun, having three retrograde cycles a year. Mercury is the planet of your mental life. It shows how you receive, process and disseminate information. The sign placement of Mercury shows your basic attitude and mental habits. The aspects of Mercury show your scope of vision and your methods for accomplishing tasks.

### MERCURY IN LIBRA

Your mind is on a quest for perfection, harmony and beauty. You are rational and fond of comparison. You look for justice. You want the right answer, the right inflection and the right emphasis. When you speak, others will see you are incredibly polished and persuasive. Be careful you don't end up as some oily, back-bending huckster bent on selling through flattery. Have a position of your own and assert it up front, as diplomatically as possible. When circumstances aren't to your liking, you make premeditated adjustments for the effect. They can be superficial or even insincere. You are easily led astray because your mind is open to all points of view. Translate this into a higher intuition; then, your open, balanced fair-mindedness wins you respect from others and many good friends.

#### *Mercury in 8th house*

You have a natural love of research. You like to dig deep into experience. You stay curious and have a tendency for searching out the roots of an issue and discovering people's motivations.

#### *Mercury in 8th house Unafflicted*

You have an uncanny knack for getting to the source of a difficulty. You are a good troubleshooter and problem-solver. You will get involved with social issues and the psychological underpinnings of people's actions.

### MERCURY CONJUNCT MARS

You have an enthusiastic, incisive and energetic mind. You are practical and compulsive. You think quickly and draw your inferences from empirical observation. Your life suffers at times by being too "me" oriented. You don't give an opinion as much as assert a point of view. You are a fighter for a cause whether or not there is a fight, or for that matter, a cause. Your mind is on fire so you often express yourself with anger. You have a natural talent for occupations involving change and physical movement.

### MERCURY CONJUNCT URANUS

You get a new idea every minute and have difficulty waiting to express it. You are truly innovative and original in your thought process. While you are nervous, you do have good mechanical aptitude. If you can get control of your hands and mind, you can be quite inventive. You have a love for technical subjects and do your best work while blazing new trails on the frontiers of knowledge. Most of your difficulties stem from situations that require you to be regular, ordinary, and consistent, conforming to everyone else's procedures. Unfortunately for you, a certain amount of traditional training is necessary or no one will understand how good your ideas really are. You have a flood of New Age information in you. You need to find a way to express it.

#### MERCURY IS IN SOFT ASPECT TO YOUR NEPTUNE

You see the future in everything that you do. You aspire to some long range goal or value. This may surface in a spiritual longing or in an artistic pursuit. You have talent for creating beauty and a natural eye for what looks nice. You do well in any career that engages your ability for aesthetic design. You have powerful and often quite accurate premonitions. Learn to work with and integrate your psychic perceptions.

#### MERCURY SEXTILE YOUR NEPTUNE

Compassionate and psychologically attuned to another higher dimension, you communicate to others in picture imagery. You are an idealist and have an ability to communicate your special ideal to others.

#### MERCURY CONJUNCT PLUTO

You have a powerful and stubborn mind. You are a great researcher and a good detective. This doesn't always help in your personal life. Others may find you too suspicious, too challenging, or too secretive. You are always mulling things over inside of yourself. You live in a sea of mental symbolism. You respond to implications and inferences rather than to people, circumstances and events. You have a special knack for mathematics, symbolic logic, computers, biology, and meditation. At times your mind will overload and you seem to do a reversal, overlooking the simplest details that others take for granted. Get rest and learn when to stop and start.

## **SECTION V. VENUS - Your Love Nature.**

The planet Venus shows the way you express your love nature and what you aspire for in life as good or beautiful. Venus has much to do with how you form your values. The sign placement of Venus shows the type of love energy you have. The house placement of Venus shows the natural area of expression of the love energy. The aspects of Venus indicate how and under what circumstances you express the gentle and loving side of your nature.

### **VENUS IN SCORPIO**

You have a love of physical pleasure. You are passionate and have an aura of secrecy about you. You like nice things and will alternately approach them and avoid them. You lack moderation and tact. You consequently go from being overly sensitive to others to being shut off. You are proud and extravagant, then very ascetic. Harmony comes to you only through stabilizing and overcoming your desires. This comes slowly by comprehensive reexamination of past experiences.

#### *Venus in 9th house*

You have a love of faraway places and people. Because travel is an important value for to you, it is likely that you will spend some time in a foreign country. You are devotional and very intuitive. You have the ability to inspire anyone that you feel close to. You help others bring out the best in themselves.

You may prosper quite a bit through your long-range view of life. You have the big picture in mind and your basic optimism is inspiring. You create success, not just for yourself but also for others. You are a good listener, and can entertain many points of view as valid and valuable.

### **VENUS IN ASPECT TO THE MOON**

You have an aspect between Venus and the Moon. This shows that you have a powerful emotional nature and are affected at a deep level by other people's thoughts and opinions of you. This was taken up in some detail for you in Section III. The Moon - Your Personal Life.

### **VENUS IS IN SOFT ASPECT TO YOUR MARS**

You are a good partner and a good relater. You have a positive interest in marrying and will probably settle down in a permanent relationship early in life. You have an eye for value and will do things with people that increase your net worth. You are practical and make decisions that are profitable.

### **VENUS SEXTILE YOUR MARS**

Your love nature is very energetic. You like people and learn much through relationships. You are very interested in having a romantic life and will go at it with some enthusiasm.

### **VENUS IS IN HARD ASPECT TO YOUR SATURN**

You have some real difficulties in love relationships and with the material world. On the surface, you are a gentle soul just trying to keep what is yours and trying to stop the world from taking advantage of you. Underneath this veneer you are driven by fear and greed and your life is poorer for it. Your instincts are conservative and you are frugal with money but this

isn't sufficient to offset poor judgment with people and things. Reappraise your way of being in the world. If your hand is closed no one can take something from you, neither can you receive what others wish to give you.

#### VENUS OPPOSITION YOUR SATURN

Your fear of other people comes from a negative self appraisal. Wholesome real relationships only emerge when you are capable of having a positive attitude. You project negative attitudes onto others, then respond to your projection. Relationships become meaningful when you know how and when to become vulnerable, meaningful, and genuine with others. You will have a difficult struggle to get real, joyful self-expression to emerge. Overcoming fear requires learning to trust life.

#### VENUS IS IN HARD ASPECT TO YOUR URANUS

You have a very unusual and unstable emotional nature. You can be stubborn, cold, and detached one minute, then malleable, solicitous and involved the next. You fall in and out of love easily. You are prone to abrupt but passing infatuations. As you get older, you learn to not act immediately on your attractions. You are in love with freedom and relationships represent freedom to you until you are really in them, then they seem like prison. When you find freedom inside your own soul your relationships become more stable.

#### VENUS SEMI-SQUARE YOUR URANUS

New and unusual things catch your attention. Your taste is fluctuating. You like different sorts of people for different reasons. You need periodic breaks in your key love relationship in order to find emotional stability. Avoid being upset when little things go wrong in your environment.

#### VENUS CONJUNCT NEPTUNE

You are idealistic and aesthetic in your orientation in life. The cultural muse is so strong you will have some involvement with art, music and the creation of beauty. In love you are an idealist and a dreamer. If your hunches and psychic impressions are accurate you get rich and have a happy life. If they are wrong you follow them anyway and never seem to learn, for you uphold truths that require no verification regardless of what goes on in the world around you. Your best safeguard is to work for the upliftment of the world. The more closely your values are united with the culture, the more likely they are to not go astray.

#### VENUS IS IN SOFT ASPECT TO YOUR PLUTO

You are powerful and magnetic. You have a magic charm for dealing with people. You have a universal love for people that is non-sectarian and non-judgmental. You are sustained by material abundance that comes from others at some time in this life and may have a sizable inheritance. When you get involved with a project you can really pour yourself into it with seemingly limitless energy. This energy evaporates when you aren't involved in a project of personal importance.

#### VENUS SEXTILE YOUR PLUTO

You have a way of making your compulsive love nature an art form. You change people through your work with them. Your deepest personal changes benefit others around you.

## SECTION VI. MARS - Your Energy.

Mars is the planet of desires. It shows how you aim at your goals and how you power yourself toward your goals. Mars represents your most fundamental wants. The sign placement of Mars shows the fundamental nature of your assertions. The house placement of Mars shows the area of your life you are most likely to focus on. The aspects to Mars show how and to what extent your desires and assertions are involved with other aspects of living.

### MARS IN VIRGO

Your desire for technical perfection can mean that you end up suppressing your wants. You do have skills but often lack the drive to do much with them. You need to build self-confidence. You work well in any area that allows you to serve others or that lets you create order. When it comes to careful, detailed work, you are either a pro or you get completely entangled in the minutiae and the situation decays around you. You take comfort in carefully defined details in any situation. Consequently, any time you feel threatened you retreat into details that make you feel safe. The trade-off? Certainty costs you vision; you lose sight of the larger picture. You learn to see "the forest for the trees" when you become more courageous.

#### *Mars in 7th house*

You are assertive in relationships and often bring out the most aggressive side of people that you interact with. This adversarial attitude can run the gambit from healthy competition to open warfare.

#### *Mars in 7th house Unafflicted*

Your ability to immerse yourself in someone else's life and issues while keeping your own life "tabled" is a virtue. You can be an excellent team player.

### MARS IN ASPECT TO THE MOON

Mars in aspect to the Moon shows that you have a lot of energy wrapped up in your instinctive consciousness. This insight is detailed out in Section III. The Moon - Your Personal Life.

### MARS IN ASPECT TO MERCURY

Your Mars in aspect to Mercury shows that you have a strong desire nature attached to your thought processes. The impact of this aspect on your reasoning process is discussed in Section IV. Mercury - Your Mental Life.

### MARS IN ASPECT VENUS

You have Mars in aspect to Venus. This aspect shows sex appeal and interest in romance. This aspect is covered more fully in Section V. Venus - Your Love Nature.

### MARS IS IN HARD ASPECT TO YOUR JUPITER

You are lucky but overstep your limits time and time again. You are truly lucky when you learn how to walk away from the dice table a winner rather than always going for double or nothing until you lose. Your tendency is always to try to multiply a winning situation rather than just accepting it as a win at face value. Enough is enough, learn to be satisfied. In human relationships you are often in a kind of good-natured competition even with those on your team. You think of this as building

character and personal reliance but others will see you as selfish and a poor team player. Your boldness and bluntness needs to be curbed; for even though people may like you, they will not trust you.

#### MARS SEMI-SQUARE YOUR JUPITER

Wrong headed concepts about the nature of a project in front of you can cause you to misuse your energy. "Short cuts" often mean starting over again. For all of this, your energy and enthusiasm alone is responsible for bringing you some success in life. Your best line of self correction is to always look before you leap.

#### MARS IS IN SOFT ASPECT TO YOUR SATURN

You know how to get to your goals in life by steady, patient, and persistent progress. You have good, practical overviews of the final result of your efforts. You are good at planning a strategy and sticking to it. You build your projects and your life with bedrock security in mind, with as little risk as possible. Discipline, patience, hard work, and the blessing of good judgment work together to form a picture that looks like "luck" to others.

#### MARS TRINE YOUR SATURN

You are an excellent judge of your limits and create much goodness for yourself by appreciation for what is appropriate socially and for what is permanent in life. You express yourself in a way that helps your long term projects manifest.

#### MARS CONJUNCT PLUTO

You have power plus. Wherever your energy is directed your life will go. There is a fascination with the deeper aspects of life and a definite pull to any position of control or power. Unfortunately, there is such a thing as too much energy. You can burn out, and have no energy for a while. You need to learn to regulate your use of force and enthusiasm. Sometimes force is unnecessary. After all, you don't need a gun in order to withdraw money from your own bank account. The positive side of this quality is that you can fight hard and long for something that you believe in. You literally will not take "no" for an answer. The negative side of this quality is that you are apt to develop a complex that operates as an independent variable within the personality but outside the normal constraints of the conscious ego structure. This can give you perplexing drives and desires that you feel compelled to put into operation and yet you don't understand. Long periods of self-discovery and conscious work may be necessary to corral this energy.

## SECTION VII. JUPITER - Your Values.

Jupiter is the king of the planets. He is in charge of the order of creation. Jupiter shows your values, where you feel confident and in control, and where you feel you have something to teach others. The sign placement of Jupiter shows your values in life. The house placement of Jupiter shows the area of life you feel luckiest in and the area you receive the most help from other people and from the cosmos. The aspect patterns to Jupiter show the direct network of good and administrative power in your life.

### JUPITER IN SCORPIO

Your values run deep and are emotionally charged. Deductive and fond of mystery, you have enthusiasm for the side of life others might as soon forget or ignore. Sex, death, and life's ultimate principles color the way you approach choices. Preferring the intense, the decisive, you do your best to avoid compromises and the normal common place ways of being. You thrive on intensity. Your reasoning is subtle and you attribute motives to others that are really components of your own makeup. You have a tendency to "short circuit" your emotions. This causes great intensity of pleasure, pain, joy and worry. You feel a great wellspring of knowledge within you for the hidden side of life, where thought and emotion blend. You are psychically connected to society and its needs, as well as the immediate demands of your environment. Because of this you are naturally "in tune" with the needs of a situation, and often find strength to act in a definitive problem solving manner. You actually prefer crises to calm because stressful situations bring out your best. Your passions can be quite strong and at times your emotions run away with you. Still, your great external restraint keeps your behavior from being antisocial. You pierce the veil of illusion in regards to other people; you see them as they are pretty much, being unimpressed by a person's social standing or financial circumstances. You are natural in scientific disciplines like chemistry and biology. You have great devotion for whatever your will is focused on.

#### *Jupiter in 9th house*

You are inherently high-minded. You have an open value system. You are willing to learn from others and expect they will be willing to learn from you. You benefit through long distance and foreign travel. You plan well for the long run. Being a visionary, you know how to express yourself in ways that go beyond just the transport of mere information; you always have a point that you wish to impart. Your communication skills are useful in anything requiring advertising, (maybe even propaganda) for you are the conveyor of images.

#### *Jupiter in 9th house Afflicted*

You see blue skies but get stuck in the mud. Your long range picture usually lacks a transition program. Keep your mind focused on the things that are immediately present in the "here and now" while keeping a lofty vision of things possible that haven't yet come into being. Then your ideals may serve you well. The danger here is that your high mindedness can be responsible for taking you into some form of wishful thinking, avoidance, or just plain escapism. Life is easier if you do some reality testing of your aspirations.

### JUPITER IN ASPECT TO MARS

You have an aspect of Jupiter to Mars. This aspect shows that you have an optimistic spirit and have the ability to assert your desires. Your enthusiasm may come forward as combativeness or as competition but in either case you are a lively participant in life. Your values and your energy emerge as zest for living. This aspect is commented on further in Section VI. Mars - Your Energy.

## **SECTION VIII. SATURN - Your Obligations.**

The planet Saturn shows where you feel restricted. You feel obligations and fears through Saturn. Because of your feeling connected with Saturn you are either responsible or neglectful. The sign placement of Saturn shows the basic type of energy connected with your obligations. The house placement of Saturn shows an area of life that you feel restricted in and work hard to obtain the things that come to you. The aspects of Saturn show the most direct involvement of other areas of your life with your feelings of responsibility.

### **SATURN IN TAURUS**

You fear not having money or being dependent on anyone else. You are solid, practical, trustworthy and thrifty. You defend yourself against the outside world by racking up material success. You are security-oriented. You can become too stubborn and cut off from others. When life becomes too premeditated you need to break the tyranny of thinking that you are your possessions. Have more fun!

#### *Saturn in 3rd house*

You seem to work harder than most people at learning basic communication skills. You may feel that you didn't get as much formal education as you wanted or needed. Or, you may have gotten an early education which wasn't to your liking.

#### *Saturn in 3rd house Unafflicted*

Your intelligence and insight increase as you age. You try to make sure that your assertiveness can be checked against observable fact. You learn from your mistakes and you learn at your own pace. Mentally you can be a slow, logical, and accomplished builder; it just requires you to carefully inventory and use what you already have.

### **SATURN IN ASPECT TO THE MOON**

You have Saturn in aspect to the Moon showing a close relationship between your upbringing and your emotional outlook. This connection is explored in its essence in Section III. The Moon - Your Personal Life.

### **SATURN IS IN HARD ASPECT TO YOUR URANUS**

You learn most lessons in life the hard way, but you do learn. It is common for you to attempt to do something the way you have done it before and find out the old method will not work or doesn't apply. When you try to apply a new method you find you have to be empirical, trying many things before you find what will work. You find life easier if you avoid letting emotional tension build up and if you make it a practice to speak your mind.

### SATURN SESQUIQUADRATE YOUR URANUS

You have great difficulty getting your rhythm in life. Frustrations come from long delays and abrupt changes in plans. Learn to see any interruption as ultimately being caused by some deep inner unrest that has been unaddressed and any delay as a manifestation, at some level, of your own fears. Getting to know yourself is the mechanism to further your goals.

### SATURN IS IN HARD ASPECT TO YOUR NEPTUNE

You are engaged in one of life's deep struggles. Your higher and lower selves fight for control of your actions. You are not generally able to secure steady forward motion along a progressive path until you willfully and consciously renounce everything that gets in the way of your highest ideal. This is not easy and will require many attempts before success comes about. Personal progress is sure though, as soon as you see your higher ideals as a direct extension of universal principles to advance for the entire society.

### SATURN OPPOSITION YOUR NEPTUNE

Secret fears and a sense of isolation prevent you from seeing where your real obligations lay. Frank discussions of your perceptions with those you are close to helps you get a more accurate picture of where you need to put your attention. Personal obligations conflict with what you see as the higher ideals of life. When you see this conflict as being in you rather than in the world, your world gets better.

### SATURN IS IN SOFT ASPECT TO YOUR PLUTO

You are a good manager and a solid planner. Your instincts are conservative and you know how to make the most out of your natural temperament. You are disciplined and see ways to make the most of your situation and position in life. Other people are a great help to you only when you are putting your best foot forward. A position of authority and responsibility comes to you eventually in life.

You have a deep interest in the occult and hidden aspect of life. You have the ability to rebuild your life after things go wrong by going into the roots of your own drives and values. You may have a profound change of values at these moments. You have unexpected gains and losses as circumstances change rapidly.

#### *Uranus in 8th house Afflicted*

Difficult and uncontrollable desires come up for you suddenly and cause a great amount of disruption in your life as they force themselves into expression. Your mind works in symbols. Find out what the desires symbolize and eliminate the cause at the roots through analysis or self-analysis.

The aspects to Pluto show the deepest most unconscious links in your personality structure.

### **PLUTO IN VIRGO**

At best, you have critical powers to discriminate between that which works and that which doesn't. There is a striving for perfection at the core of your being that can narrow your horizons so far that you focus too much on basic issues connected with your own life. At worst, you are so critical that you slow down everyone's effectiveness. Patience and hard work are required in order to complete your personal transformations.

#### *Pluto in 8th house*

**YOUR MAJOR PLANETARY ASPECT IS A TRINE.**

You like to do things in a big way. You are optimistic and expect to win. Your positive attitude and general long range view in life gives you the best possible chance to make something good come from your various talents. Even setbacks look like an opportunity to grow. Your ability to avoid difficulty seems like luck to others while it is a natural and obvious skill to you. Your keyword is Enthusiasm.

**YOU HAVE NO PLANETARY QUINCUNXES.**

You have a serious and accurate manner for approaching changes in life. You see the possible and basically push to make more of what has happened in the past happen again. You have a natural talent for building on past experience.

### **B. YOUR EASIEST AREAS.**

The following material is an index of things that you have developed as inner resources. You may take them for granted, but in times of reevaluation and rest this part of your personality can provide you comfort and strength.

Sun in Leo.

The strength and surety of your ego structure is a tremendous personal asset. Your ability to naturally and immediately focus all your attention on your own self is a help in everything you do.

Moon in the Fourth House.

You have a good family life. Your ability to focus your attention on your personal life gives you continuity in your daily habits. Family, your past, and heritage means more to you as you get older.

Jupiter in the Ninth House.

You have a natural adaptive mechanism in life that stems from your ability to draw on things faraway in time and space. Confidence is your secret key. When you have complete faith in the universe to do the right thing your success is secure.

Uranus in the Eighth House.

You have a habit of facing a dead-end situation and altering it for your benefit. You have times of forcing deep changes in your personal value system and can affect those around you quite favorably through your changes.

Pluto in the Eighth House.

You are committed to the transformation of your relationship to your world. Years may transpire where this isn't evident, but you are always working inwardly on this very project and it is a deep source of strength.

### C. YOUR MOST PERSISTENT DIFFICULTIES.

This material describes the "cutting edge" of your work on yourself. The thoughts rendered here are meant as further guidelines for growth. You should take difficulties and challenges in the right spirit. They are always positive indicators as to how you can experience the joy of becoming a better person and more like your REAL SELF.

#### Afflicted Moon

You have routines in your life that operate as if on remote control. These unconscious habits bring you a harvest that is out of tune with your conscious aim in life. Before you act, be thorough in your projection of what you can meaningfully expect from your actions. You will learn in this manner and be able to bring about more positive results from your efforts.

#### Afflicted Pluto

Never hold a grudge. Don't let negative experiences from the past lock up inside of you. You have a habit of allowing toxic experience to collect and build up until they distort critical ingredients in your personality structure. Learn to transform inner negativity into real strength by concentrating on ways you can better your own life by altering your deepest attitudes and beliefs. A sense of humor and not taking yourself or your position in life so seriously certainly helps in this.

#### Sun in the Seventh House

You give yourself over entirely to others and then feel betrayed when they don't live up to your expectations. The way out of this confusion is to be more direct in expressing your wishes.

#### Sun in Libra

Your love of other people and a romantic urge carries you away from the here and now. Your energy and stamina can ebb and flow to such a degree that others don't know whether or not to rely on you. Practice consistency.

#### Moon in Capricorn

You are competitive and self-contained in your daily activities. This need to prove yourself is rooted in feelings of inferiority. Practice being more peaceful; accepting yourself sets a smoother course for relationships.

#### Venus in Scorpio

Your love nature is so intense that you easily scare away those you would attract. You love and hate with such extreme that you only find peace through a higher communion of the spirit. Practice altering your vibration so as to escape self victimization through petty attractions.

### Mars in the Seventh House

You have difficulty with relationships because you become too "bossy". Be less concerned with what others do and practice being more of a self-starter. Be aware of how you affect others and your energy will function better.

### Neptune in the Tenth House

You ride a wave of culture toward your social position in life. You don't impress others as being particularly competent so you have to work harder than most at limiting the scope of your vision. Make sure that you don't ignore critical details of your quest in life and you can avoid being disconnected and irrelevant. Avoid doing things that give others the perception that you are momentary and just "going with the flow" of circumstances. Instead, commit in specific ways to big projects so you stay meaningfully connected to others.

### Pluto in Virgo

You suffer in the process of self-transformation because you have difficulty in making the decision to change yourself rather than changing circumstances in your life. Get more basic, change your attitudes and habits and life becomes much lighter.

## D. THE GROWTH ASPECTS

The Growth aspects operate differently than other aspects in your chart. While it is possible to use them descriptively, as showing finer shades of meaning within the chart, we wish to use them in a different manner for our purposes. The growth aspects are tools of self development. If you apply attention to the various qualities in your nature linked through the growth aspects, you will see positive change over time. These qualities generally do not show quick effortless solutions, but instead show a path of change requiring exertion and emotional honesty. Under these circumstances, the way these aspects of your nature change through time are truly amazing. The qualities mentioned here can be the very mechanisms to release the highest, finest side of your nature.

### Jupiter in Growth aspect to Uranus

Learning how to turn your abrupt bursts of enthusiasm to your benefit becomes a mechanism for growth. There is an inner belief that you can obtain freedom and personal satisfaction in life by throwing yourself into action quickly. This is correct but you will have to work on the techniques of self expression and substance of your life goals in order to get the higher side of this aspect of your nature to function correctly.

### Jupiter semi-sextile Uranus

Your values will change several time in life. You will work hard to expand your aims to be inclusive of your long range ultimate beliefs. To do this is to start developing crossovers to a more accurate way of addressing the larger arena of our society.

## E. THE DECLINATIONS

There is another dimension to your astrology chart. This has to do with planets being the same distance from the celestial equator. When both planets are on the same side of this plane there are called parallel. When the planets are the same distance but on opposite sides of the celestial equator they are referred to as being contra-parallel. Both of these aspect activate your ability to organize and reorganize some aspect of your life.

### Moon Parallel Venus

A sweetness colors all that you do and the natural tendency that you have to create harmony. Your gradual responses to life and your instinctive reading of each situation that you are in lends itself to the creation of art and beauty.

### Saturn Parallel Pluto

You are living with a powerful force within you for good or ill. Difficulties can come to you when your tenacity or compulsive addictive nature gets in the way of common sense. There are times when you will need to learn to let circumstances alter you, rather than just using your stubbornness, strength, and energy to alter circumstances. Under the guidance of your higher precepts you are capable of phenomenal discipline.

### Neptune Parallel Ascendant

Some mystical insight or powerful ideals propel you in life. The strongly sentimental and visionary side of your nature will demand some expression. Your personal relationships will be colored by idealizations and projections. Other people will seem a mystery to you but, relating is always fun and your ability to see people's potential can be a wonderful asset.

### Mars Contra-Parallel Uranus

You feel that circumstances dictate quick responses from you and this means that you often struggle to make your erratic behavior constructive rather than abrupt and accident oriented. Correctly channeled, you are able to create new and unusual ways of completing your everyday tasks. You can be in a hurry but this can end up giving you much leisure time.

## F. YOUR KARMIC DIRECTION

The Moon's North Node is an all encompassing and instructive point of synthesis in the chart; we could easily start or end our analysis with this one single factor. Because this indicator is so all inclusive it most shows your karmic direction in life. The sign placement of your North node points to your destiny. When your actions, interests, and values are structured by this position, your general sense of personal well being improves. The house placement of the North Node of the Moon indicates or points to an area of life, an arena of experience. By confronting, even augmenting this arena you can inadvertently improve every aspect of your life. By dealing with issues connected to the North Node placement in your chart your general character strengthens and refines.

### North Node of the Moon in Pisces

Growth comes by expanding your faith in positive spiritual principles of living. Your natural inclination is to analyze and label everything; matter of fact, you over-analyze. You need to grow beyond this trait through developing trust in the inherent goodness of the way things happen. Human relationships improve through believing in people and seeing their positive attributes. As you augment the ideal factors in your dealings with others you become more emotionally satisfied with your own life.

### North Node of the Moon in Pisces and in the First House

Life improves by letting the gentle side of your personality emerge. Having faith in yourself and having the ability to express this faith better your standing in life. Don't be pulled into criticism of others or into working intensely for other people's projects or you make it hard to be truthful with yourself or others.

## TABLE OF DEFINITIONS

These are some basic astrological definitions. Reading through this material can enhance your understanding of your INDRA report. You may want to take up a more serious study of these symbols as a preliminary step to a study of all of life through astrology.

### THE PLANETS

The Sun and the Moon - Basic central core of the personality. These two bodies represent how we make decisions, how we act, and what we value.
