## Introduction

\*\*\*\*\*

This report is divided into two sections: the first one analyzes your personality with its multiple facets (Sun and Moon positions); and the second one analyzes the twelve astrological houses.

This report is not merely descriptive. In the majority of cases, ideas are suggested that can help your personal evolution. The subjects are approached from different points of view such as metaphysical, spiritual, nutritional and general.

In a few places there may be certain contradictions because an astrological influence may favor one aspect of life and harm another. Because of that, it is necessary that you read the report with a bit of logic and, especially, that you let your intuition guide you.

It is necessary that you know yourself, that you know your potential and your limitations, because by working on your personal evolution you help everyone else as well, contributing to the evolution of all life.

## FIRST PART

\*\*\*\*\*

### **Chapter 1: Your essence. Your self. The Sun.**

\*\*\*\*\*

**Character is destiny. By improving  
your personality you create good  
conditions for your future.**

*Sun in Capricorn:*

Kevin, you were born under the sign of Capricorn and your ruling planet is Saturn, the planet of patience, wisdom and maturity.

You are a very responsible man, a hard and tenacious worker. You feel strong and independent and are capable of making great efforts and sacrifices in order to reach your goals. Your practical and realistic sense of life allows you to solve many problems, and your serious and profound manner instills a lot of confidence and respect in the people around you. You have an innate capacity to direct and organize people but you prefer a job involving less contact with them. Life is hard for you and full of challenges, however, you have the strength necessary to triumph in every single task you start.

Your style is traditional and conservative; you are not interested in attracting attention nor do you expect great recognition for your efforts. You are the support of your family and the one who assumes the great majority of the responsibilities. You are not interested in maintaining a large social life but with your few friends you have a parental, protective attitude; you offer yourself totally once you trust or love. You are firm in your opinions and objectives and it is difficult for you to change them; your patience and perseverance are admirable.

Though your external image can be very strong and possibly unemotional, in love you are intense and passionate. You know how to love deeply accepting the other one just as she is. You are faithful and constant in your affections; you cannot easily conceive of a breakup or separation because you are willing to fight with all your resources to maintain the relationship. You love solid, responsible, serious, authoritative and intelligent women. You like intellectual challenges and you always test the other person's mental capacity. You need to admire the woman in order to love her, or you lose interest. You want to see solid proof of her abilities and strength before you open your heart: once you do so you do it forever.

Kevin, you were born to impart order, organization, and caution. You like to teach respect for norms and traditions and you want to work hard, to investigate, and to educate. Some of your missions are to guide weaker people, to assume responsibilities, and to transmit security and confidence to those who need it. You will teach others to economize, to view life with realism, to be practical, and, mainly, to be persistent.

To evolve, you need to learn to relax, to enjoy life more and to be less pessimistic. You need to learn to show

your affections more openly, overcoming inhibitions or the lack of confidence. It is necessary for you to avoid either holding grudges, being selfish, or the tendency to be a fatalist. Your exaggerated preoccupation with the material world can make you put aside your spirituality or religious faith. You have to learn to delegate, to trust in others and not to suffocate yourself with the responsibilities you assume.

*Sun in 5th house:*

You are a very romantic man with many opportunities for love. You like seduction and conquest, and you find yourself very attracted to those people who excel at something or who have a strong character. You need to admire a woman in order to fall in love with her.

You can possibly have many romances and adventures because you are very attractive. There will never be a lack of opportunities in your life though at times it may seem otherwise. In another sense, you can excel in any creative, artistic, sport, teaching or speculative activity.

You love children and your relationship with them is very intense. You transmit a lot of happiness and confidence to them. There is a strong possibility of having successful and outstanding children, and you will be very proud of them.

*Sun Opposition Jupiter:*

You tend towards laziness and self-indulgence. You may be overly optimistic and believe that everything will be magically resolved. You may think that you can do whatever you want without considering others; if so you must combat such selfishness.

You must learn to place limits on your relationships, objectives and ideas in general, because you can see everything on a large scale and therefore underestimate the details of certain situations. Also, you need to learn to control yourself with food, drinks, and pleasures in general because you can be excessive very easily and gain a considerable amount of weight.

It is probable that you had an overprotective or uncaring father, from whom you inherited your optimism and positive mentality. Throughout your life, you will also search for a protective woman who will resolve your major problems. You must avoid any tendency to irresponsibility and stagnation; try to exert yourself in every task that you undertake without simply waiting for the solutions to come your way.

*Sun Opposition Uranus:*

You are very rebellious and independent and people consider you eccentric in your tastes. Your style is neither traditional nor common. You find yourself attracted by anything different and you reject social norms and other limiting impositions. You are an anarchist and impose your own laws and game rules, which makes you difficult to understand. You are also very anxious and energetic and do not like to wait: you need movement. You probably feel pleasure in speed and other intense sensations, which makes you prone to accidents.

You will call attention to yourself wherever you are. Your personal magnetism will be very strong and you will always give others something to talk about. Your creativity and originality may also surface but you are not very practical and probably not concrete with many of the ideas you have. You must learn to be more patient, persistent, and to direct your energies in a better way to gain successfully what you want.

The relationship with your father was not conventional and it was probably very tense, with great differences of opinion and lack of mutual understanding. As a child you looked for attention in order to receive more love and that only accentuated your rebelliousness and discontent. You will look for a special woman, different from the classical or typical one. You are interested in having friendship in your marriage allowing you to keep your freedom, but it is probable that your impatience will cause you to quickly end the relationship. You must learn to be more flexible, less whimsical and also understand that not everything can be done your way.

*Sun Square Neptune:*

You are very susceptible to slights and are easily hurt. You tend to underestimate your own value and your chances of success, giving way to fears and insecurities. You have a huge imagination, much inspiration and a sensitivity towards living beings, and you can excel in humanitarian jobs, but first you must learn to be more practical, solid and realistic in your objectives.

The relationship with your father was confusing and weak, generating insecurities during your childhood. You may have had an evasive or ambivalent father with a weak character who did not offer you the love that you then needed. This may have become your first deception in love. You are prone to seeking in your wife the love that you did not have and that can lead you to confusion. Try to be objective and see people the way they are to avoid disillusion. You may relate to evasive women who do not commit to anything or who escape from their obligations and need your attention.

You must learn to not become a victim and assume that you have control over your life; do not become bewildered or submit to internal fears. Your self-esteem may be low and it is necessary to elevate it first so that you can establish better relationships.

A strong tendency to evasiveness exists that can lead you to vices. Strengthen your spiritual side and trust your own resources to solve your problems: nothing will be so terrible in reality as it may seem to you.

*Sun Sextile Mars:*

You are a very constructive man, full of energy and vitality. You will find yourself attracted to enterprises that entail some type of risk or that require great decisiveness because you feel that you have the necessary strength to overcome any obstacle. You are very positive, frank, open and direct with your opinions. You are willing to help those in need and you will be a support for many people around you.

You will feel attracted towards people who, like you, are open and sincere. You will always be active and willing to undertake new paths. You will find support in strong people with a dynamic character. It is probable that the relationship with your father is very dynamic and gives you strength and self-confidence. In time, you will choose to marry an aggressive, active and protective woman.

\*\*\*\*\*

## **Chapter 2: The Moon. Your emotional world.**

\*\*\*\*\*

### *Moon in Sagittarius:*

Your emotions are fiery, intense and changeable. You easily become enthusiastic when you meet someone and just as easily become disenchanted. You cannot stand boring, static or monotonous relationships. You love conquest and throughout your life you will be involved in more than one impossible or difficult-to-fulfill relationship. You like to seduce others and are likely to experience a few misunderstandings because of it. You become desperate when you feel that you are losing the one you love; but when you get her you become tired of her. If there are no further astrological indications to the contrary, you will not marry very young because you prefer to keep your freedom.

You are very curious and you find yourself attracted to new situations of conquest or adventure. You are childlike and naive, and you generously share everything that you have. You freely express your ideas and you frequently neglect others' sensitivity which makes you say things at the wrong time or to the wrong person. Your anecdotes in this regard will be many. You like to understand the personalities of different cultures and ethnic origins. You love to travel, especially to strange faraway places. You feel the need to expand your horizons and you dream of a future when this will occur. When confronted with problems, you can procrastinate or be uncompromising.

It is probable that your mother allowed you a lot of freedom in your childhood, offering all that you needed and, at the same time, leaving things to your own judgment. You may have observed her being immature or unsure of her motherly role and therefore ignoring her responsibilities.

In previous lives you have traveled to foreign lands to study, preach, or teach philosophy, law or religion. Because of that, you are not used to remaining tied to a relationship or a particular place. You wish to be with the people that you once knew far from home. You will find that you have a facility for learning languages and that you are not afraid of the unknown. It is possible that you witnessed or suffered certain injustices and that is why you now have a strong sense of justice and are protective of the powerless. In this incarnation you feel the need to share all your knowledge, and you will try to overcome the sensation of solitude or aloofness that distance has made instilled in you.

### *Moon in 3rd house:*

Kevin, you are very imaginative and intuitive. If you dedicate yourself to writing, journalism or publicity, you could become very famous. You are very restless and that will lead you to travel much and to make connections with people. You have the capacity to understand other people's emotions and the ability to convey sensations and states of mind. You cannot stand routine and your changing and curious mind will keep you in constant movement.

If you have brothers you will be close to them and they will have an important place in your life. You will be well known in your town and you will play an important role among your neighbors and parents.

This position also causes changes in studies, changes in school and lack of concentration. You can be a romantic and imaginative dreamer, and your mind will quickly eschew any themes you find boring or too abstract.

*Moon Conjunction Venus:*

You are very sweet, loving, eager to please and romantic. You express your masculinity with refinement and gentleness, which makes you be loved by people around you. You love to please; you are diplomatic and cautious. You are happy to be a man and that makes you express much love and warmth as well as intense emotions.

In addition, you will develop a great aesthetic sense. You will excel in any artistic, musical, or other creative task where you can freely apply your good taste. You will try to surround yourself with harmony and beauty, sometimes to the point of extravagance. You must combat laziness, stagnation and the tendency to self-indulgence.

*Moon Trine Mars:*

You are a dynamic, strong and very positive man. You are very enthusiastic about the tasks you do and you infect others with your energy. You are constructive and decisive.

Your emotions are intense and you are openly affectionate. You feel sure of being a man and you show it in all your actions. People will trust you and will look for your support and happiness.

In addition, you will be very healthy. If you ever have a physical problem, the possibility exists that you will recuperate easily because of your positive attitude and the great amount of energy that you possess.

Your mother has been secure and dedicated throughout her life, and from her you have learned to occupy a dynamic role. It is probable that you are a leader in your own home and that you solve most of the problems that appear.

## SECOND PART:

### Your destiny according to the 12 astrological houses.

\*\*\*\*\*

#### FIRST HOUSE: Your personality. Your body. Your childhood.

\*\*\*\*\*

##### *Virgo Rising Sign (1st house cusp)*

People see you as an intelligent, practical, and efficient man. You excel because of your ability to see details and solve daily problems, especially those of others.

In spite of your many abilities, you have a big disadvantage: insecurity. Inside you are shy and need others to reaffirm your values; because of this, you strive, you sacrifice yourself, you please others and suppress your aggressiveness. You are gentle and emotionally complex. A great deal of the time you give more than you receive hoping for the same in return, but this only leads to disillusionment. You must learn to express all the characteristics of your solar sign (described in Chapter 1) freely and surely. It is possible that you analyze each step you take and that you finally do nothing.

You never stop thinking and that can lead to a nervous breakdown. Though your body is not fragile, you can suffer from a few illnesses because of your hypochondriac tendencies. When you feel bad emotionally, you become ill as a way of attracting attention and seeking love.

As a child you showed much curiosity and intelligence searching for logical answers to that which was inside you. It is possible that your family suffered from economic or emotional imbalances that greatly affected your sensitivity. The irrational attitudes of adults, their fears or crises you suffered and did not understand, have generated many of your present insecurities. You must do a few visualization exercises to connect yourself with your inner child and offer him all the love and protection that he needed then.

\*\*\*\*\*

## **SECOND HOUSE: Money. Assets. Resources.**

\*\*\*\*\*

### *Libra on 2nd house cusp.*

Your economic balance will depend greatly upon your marriage. You may marry someone very rich who will solve your financial problems but that will result in a strong dependence on her. Also, the possibility exists that you experience some type of association and obtain profits through a joint venture.

You have many talents, but you need the support of someone close to succeed in the material world. You will change jobs several times and each will be very different.

You can obtain profits through social activities such as public relations, or in anything related to the arts, beauty and design, or to the feminine world in general.

### *Saturn in 2nd house:*

You could have grown up in a family that was constantly worried about money, suffering from economic difficulties and consequently, you developed a preoccupation with reaching financial stability. You are cautious and thrifty because you fear the lack of money. This astrological position does not deny the possibility of making money but does suggest you will accumulate it in a slow and gradual manner; you must be orderly and persistent to obtain your success, and you must also overcome your anxiety. You could make money by investing in real estate.

### *Saturn in Scorpio:*

You possess great willpower, energy and intensity to face life. Your personality is magnetic and you will be very demanding of the people around you, though your behavior will be subtle, persistent and determined. You try very hard to contain or suppress your energies; you do not show your feelings easily and your image is calm and controlled, but this is not always good. You must learn to release your anxieties without fear and to freely express your preferences.

### *Saturn Trine Uranus:*

You have much willpower, initiative and an endless determination. You combine your practicality with intuition and you possess a great common sense, much administrative ability, and you are persistent in your objectives. Inside you maintain a balance between the old and the new, authority and your own freedom. You will fulfill your duties responsibly but will seek to accentuate your own independence; you need to work freely. You will direct your creative energy effectively and will be a hard and tenacious worker.

### *Neptune in 2nd house:*

You could have good ideas and be inspired to make money but if you do not learn to manage your finances, you will experience many ups and downs, losses and betrayals. You must avoid shopping with charge cards or carrying much cash because it will tend to slip through your fingers, and you must beware in general of

associating with certain people because the danger exists of finding yourself mixed up in fraudulent situations.

*Neptune in Libra:*

Your generation is interested in new concepts concerning law and social relations. They are altruistic, humanitarian, passionate and lovers of peace, but they could also show an impractical, lazy or unwilling side. Kevin, as a part of your generation, you must choose your companion and best friends carefully, because your tendency to idealize and not see things realistically will lead to deceptions. If you do not act coherently and with a certain emotional detachment when making your marital choice, this astrological position could lead to a future separation.

*Neptune Sextile Pluto:*

You possess a great creative and artistic ability. You will also fight against injustices and will seek reforms in the legislative system. Your intuition is powerful and will lead you to study and reveal the secrets of nature. It is probable that you are not totally understood in your ideas about freedom or in the use of your mystical knowledge; nevertheless, your interest in the subject will not wane.

\*\*\*\*\*

**THIRD HOUSE: Your mind. Your education. Short trips.  
Your brothers and sisters.**

\*\*\*\*\*

**The mind is a magnet: it attracts  
to you exactly what you  
think about.**

*Scorpio on 3rd house cusp.*

Kevin, you are very intuitive and have an inquiring mind. Despite your scientific interests and your search for logical explanations, your mind functions more by feelings than by reasoning. You can easily perceive hidden emotions in others, discover lies without having solid evidence and have paranormal experiences such as telepathic transmission of thoughts. You have an investigative soul and a mind intent on uncovering the mysteries of life.

It is possible that you are a bit shy and reserved in expressing yourself. You will not say much about yourself, and if you are hurt or offended by someone, you could harbor deep resentment for a long time. You must learn to express yourself with more freedom and to release your aggressiveness or anger in a constructive manner.

With respect to studies, you are interested in sciences in general, and you are dedicated to your purpose. You can spend hours studying or reading without noticing what is going on around you. If you take some mind control courses and learn how to program your mind, you will attain everything that you set out to do in life because you are persistent and tenacious. Try to control negative emotions that disturb your mind.

The relationship with your siblings (if you have any), neighbors or relatives can be tense. It is possible that you encounter disagreement or opposition from some of them. Also, you will take a few short trips to mysterious places.

*Venus in 3rd house:*

You will enjoy the relationships with your siblings and relatives in general. Your manner of expression is refined and pleasant; if you demonstrate artistic inclinations, you could combine your intellect with your great creativity and be a writer. You do not like arguments or rough language; you prefer to cope with persuasion and not pressure.

*Venus in Sagittarius:*

You love freedom above all else. You are very sociable, happy, enthusiastic and expressive. You possess a strong sense of justice and loyalty and will not countenance disdain or treachery. You are very honest and your tastes follow the traditional line. You enjoy outdoor life and sports. It is probable that you have experienced (and still have yet to experience) many romances because of your restless and conquering nature. It will be hard for you to establish a firm and lasting relationship for fear of restricting your freedom. Also, it is probable that you will travel abroad frequently where you could fall in love and get married.

\*\*\*\*\*

**FOURTH HOUSE: Your home. Middle Age and Later Years.**

\*\*\*\*\*

*Sagittarius on 4th house cusp.*

You grew up in a cultured or wealthy home, that stimulated your intellectual curiosity and the desire to learn. It is possible that one of your parents is a foreigner or that he/she was of a different culture.

It is possible that during your maturity you will move to a foreign land or that you will take many long trips. One way or the other, it will be a dynamic, joyous period, full of adventures and action. You will feel young and full of energy. Your body will not show its real age and you will feel surrounded by younger people instead of older ones.

Also, your curiosity will be inexhaustible and you will become interested in studying or learning philosophy, law, languages or sciences. Your religious spirit will become accentuated and you will show a deep closeness to God.

\*\*\*\*\*

**FIFTH HOUSE: Love. Romance. Children.**

\*\*\*\*\*

**"Love is blind when it is born,  
nearsighted when it grows, and  
it sees all when it dies."**

*Capricorn on 5th house cusp.*

It is possible that you have few children: one or two only. They will be serious and studious, and will be easy to raise. In the future, they will be well educated and show much dedication to their profession, in which they will excel.

You associate love with the idea of responsibility and you want to find a mature, serious and stable woman to trust. You fear failure and are demanding in your search, which will lead to long periods of loneliness and dissatisfaction. You are not interested in a fleeting romance and prefer to be alone rather than in bad company. You find yourself attracted by mature, responsible, educated and prudent women, or those who remind you of your mother.

You must learn to express your feelings more freely and effusively because you can project the image of coldness or indifference. In reality, you are passionate and give yourself totally to love but first you must find security and stability. You are very responsible with your affections and reject infidelity.

The following list will help you understand how you can relate yourself to the rest of the signs. If you happen to know the other person's rising sign, you have to combine it with his/her sign in order to get a more complete description of that person.

*Virgo:*

You will feel a great personal identification with people of this sign and together you can develop projects common to both. A good sign for marriage.

*Libra:*

A relationship tied in with business, finances or financial aid is favored over a romantic one. The union offers stability and protection but could also be out of an interest in money.

*Scorpio:*

You could maintain very good communication and an interchange of ideas. A mental or light relationship is indicated.

*Sagittarius:*

A personal and intimate relationship in which deep emotions will be shared. A very good sign for marriage because it indicates the possibility of making a home together.

*Capricorn:*

A relationship of mutual love and attraction. You can enjoy and share many happy moments but difficulties exist in maintaining the relationship over time. Ideal sign for courtship or romance, not for marriage.

*Aquarius:*

An unequal relationship in which one offers more than the other. A difficulty exists in openly expressing feelings. A work relationship is favored over a romantic one.

*Pisces:*

Ideal sign for marriage or associations. It is also possible that one of your best friends is of this sign. This is a sign of complements; each can have opposing personal characteristics and that generates attraction.

*Aries:*

Magnetic and intense attraction is indicated. Sign of passionate and uncontrolled romance based on a strong sexual attraction. A relationship that implies a dare or a strong emotional experience.

*Taurus:*

A sign that represents a second marriage; a happier and more spontaneous relationship based upon the exchange of ideas common to both. One could assume a protective or teaching role with the other. Probability of an encounter in a foreign land or of long voyages together.

*Gemini:*

A sign that stands out in your destiny. The people of this sign, both friends and lovers, will exert an important influence in your life. It is an ideal sign for marriage because it points out objectives and ambitions common to both, but it can also indicate too much worry over social status.

*Cancer:*

Sign of friendship that represents common desires and fantasies. Open, friendly, happy and warm relationship, though probably it will not be lasting. If other common elements exist, it may lead to a marriage based on friendship and respect for each other's individuality.

*Leo:*

Karmic relationship initiated in previous lives. It is possible that you have to confront strong difficulties to be together and that it is a clandestine or secret relationship. Also, it can indicate an impossible or intriguing love affair. This sign is the least favorable for obtaining a happy and open relationship; if you are involved in one, it

will be difficult for you to cut yourself off or escape because of doubts about your destiny and the lessons you have to learn.

Remember the following: everything that she does to you is what you did to her in previous lives. It is good for you to practice the exercise of forgiveness and forget any negative emotions.

Note: if two signs are repeated, it means that the relationship is more complex. If one of the signs is missing, its interpretation is the same as the previous one. To make things easier, this is the list of the signs: Aries, Taurus, Gemini, Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius and Pisces.

All relationships are PERFECT. Each situation you experience with another person is the perfect and necessary one for your evolution; because of this, it is important that you do not cling to negative emotions such as anguish, depression, fury, frustration, etc., and that you try to see at every moment what life wants to teach you. Each person you know has a message for you and until you listen to it, it is highly probable that it will be repeated. Some relationships have karmic ties: they have been initiated in other lives and there may be dues to pay. It is possible that what someone makes you suffer is what you have done to him/her in another time. That is why you must forgive and forget. In every situation repeat to yourself : "everything is perfect"; though at the beginning you may not understand it, later it will be crystal clear.

#### *Mercury in 5th house:*

Your mind is creative and you express yourself dramatically. You show great ability as a speaker and you enjoy lectures very much, as well as games that challenge your ingenuity. Your creativity will be manifested through literature and you could become a professional writer. Your education is very important and you can have an aptitude for teaching. You love to go to every kind of show.

In the love field, it is probable that you will speak too much about your feelings instead of demonstrating them. Your mind tends to lead your heart and that could make you somewhat unemotional or calculating.

#### *Mercury in Aquarius:*

Kevin, your mind is original, creative, and independent. You cling to your own ideas stubbornly and do not respond to any pressure from others. You are very curious, observant and intuitive. Your acute mind is objective and clear in its opinions; it will be difficult for you to be dominated by your emotions when making judgments. You have a great intelligence which allows you to learn any subject very quickly, as long as it awakens your interest and does not bore you. Your manner of communication is open, spontaneous, and unprejudiced and you like to speak with everyone, but especially with people who attract your attention. In spite of your apparent flexibility, you do not change your opinions nor can you be easily influenced. Formalities do not worry you, and neither do traditions or social acceptance. Your ideas are in tune with the Age of Aquarius: they point towards the future and towards a life of great freedom. You can be misunderstood by your family or friends, or you may seem eccentric in your tastes; but what is really happening is that you are ahead of your time.

*Mercury Sextile Venus:*

Your mind is refined and your reasoning is intimately tied to your emotions. You express yourself warmly and sweetly; you will have much success with the public and can excel as a speaker. Also, Kevin, you are very creative and it is probable that you demonstrate artistic qualities. You do not like to argue or to remain in noisy places. To achieve good relations with others, you need to feel harmony in your environment.

\*\*\*\*\*

**SIXTH HOUSE: Health. Nutrition. Work. Service.**

\*\*\*\*\*

Attention: in this section you will find recommendations to improve your health, but in cases with specific problems you must consult your doctor.

*Sun in Capricorn:*

Capricorn rules the knees, toes, tendons, joints, skin and hair. You are very methodical and effective when it comes to respecting a diet or medical regimen. Your greatest problem is the tendency to lead a sedentary life, staying too long in one place without adequate ventilation. Your responsibilities are very important and you do not maintain a daily physical exercise routine because you find it a waste of time. In general, you will be healthy and your disorders, for the most part, will be of nervous origin; that is why it is important that you cultivate a good sense of humor, flexibility, optimism and a positive mental attitude in life. Your solid, persistent nature and iron will make you fight fiercely before succumbing to any disease.

To preserve good health, you must consider the following: balance your working and resting hours; spend your free time in open spaces, breathing plenty of fresh air; sun-bathe; exercise or practice some type of sport, such as swimming; do not isolate yourself in moments of depression or sadness; perform Yoga respiratory exercises; do not smoke; meditate; dedicate more time to lunch and dinner; eat a variety of foods and avoid heavy or highly seasoned foods; chew your food well before swallowing; perform mental control and relaxation exercises; and mainly, do not take life so seriously and try to laugh and enjoy more.

*Saturn in Scorpio:*

This astrological position can cause a poor peristalsis, constipation, colon problems caused by irregularity, toxemia, bladder stones, problems with the reproductive organs, sinus difficulties, and throat problems.

*Aquarius on 6th house cusp:*

Your short term health problems may be related to nervous exhaustion, stress, and to the lack of the vitamin B complex. It is important that you learn to relax.

To prevent these problems it is recommended that you add to your diet the following foods: all legumes, whole grains, nuts and seeds, asparagus, corn, lentils, watercress, soy, cabbage, coconut, grapes, lemons, pineapples, peanuts, wheat germ, bee pollen, egg yolks, and other foods rich in vitamin B.

Your long term health problems may be caused by insufficient oxygenation of the body, or by lack of vitamins A, D, and magnesium. Your common ailments will be manifested in the circulatory system, causing poor circulation in the extremities, palpitations, and cardiac problems in general.

It is important that you add to the above list of foods the following: celery, carrots, broccoli, alfalfa, lettuce, red and green peppers, spinach, sweet potatoes, tomatoes, dry or natural peaches, cherries, apples, lemons, oranges, fresh cheese, yogurt, and sunflower seeds. It is recommended that you avoid fried or fatty foods; do not

smoke or drink alcohol, and maintain some type of regular physical activity.

To have in mind: many of your emotional unbalances are not produced by external situations or experiences but by blood disorders. The lack of some nutrients or intoxication or other excesses, can often cause changes in your system and lead to depression, anguish, fatigue or aggressiveness. Because of that, if you want to be happy, do not neglect your body--give it the best nutrition possible.

\*\*\*\*\*

**SEVENTH HOUSE: Associations. Marriage.**

\*\*\*\*\*

**Your companion is your reflection.  
Everything you find in her, in  
some way is in you.**

*Pisces on 7th house cusp.*

If there are no contrary indications, your marriage will occur when you are approximately 25 years old. You will choose as a wife a sensitive, expressive, and kind woman, who will be very devoted to and you and also greatly dependent on you.

Living together will be serene and every problem will be resolvable by talking out your different view points. Nevertheless, your most common complaints towards her are: her tendency towards disorder and personal neglect, her fantasizing, and her lack of common sense and decisiveness. Of the two, you will be the most realistic and active one, the one who has his feet on the ground and decides which way the couple is going.

You choose complex relationships that demand a great effort on your part, which could lead to exhaustion and loss of interest with time. If this happens, you will divorce but probably never completely end the relationship. The main problem is that great illusions present themselves at the beginning of the union and later disappear. If you manage to stay realistic and accept the other just as she is, without criticizing or attempting to change her, then you will enjoy a very warm and satisfactory relationship.

*Mars in 7th house:*

This star can bring an early marriage with an authoritative and dominant woman. She will be energetic, active, selfish and impatient. She will say things in an indelicate way which will generate tension, strong arguments or even violence. Living together will be very difficult and, if you do not agree with her a break-up could occur. If there are positive astrological aspects, you will be stimulated by your companion to pursue your objectives and will depend greatly upon her opinions.

You are strong and sometimes controversial and you feel you need to prove yourself. It is probable that you will have arguments or disagreements with associates, or legal problems.

*Mars in Aries:*

You are independent, vigorous, dominant, autocratic and brave. You do not like routine and it is difficult for you to adjust to compromise. Kevin, you were born with a lot of strength, initiative and aggressiveness. Your enthusiasm will be contagious and you will assert your authority. On a negative note, you could be very impatient, irritable and have uncontrollable or difficult-to-satisfy desires. If you succeed in directing your energy, you will reach success in any enterprise you set out to do. You have much physical energy and your body recovers very easily from any illness. You are an active person who needs continuous physical activity, therefore, you can excel in sports or exercises, and in any competitive enterprise. You become angry easily but you also calm down with the same swiftness. You must learn to control your selfishness and to think more

before acting. It is recommended that you be careful because your great courage and tenacity make you prone to certain accidents or falls.

Do not evaluate the success of a relationship by the result because it does not depend solely upon you. Always analyze what you have done: if you have offered yourself correctly, if you have loved sincerely, if you have set aside your selfishness, etc. What the other person does is her own responsibility and you cannot manipulate it. In a couple, the responsibilities are always divided in half; take care of your share. At times, one gives everything and does not receive anything; it does not matter. Destiny will take care of it, returning all the love you may have given. Do not make the mistake of secluding or hardening yourself or becoming emotionally detached because of suffering caused by others. Try always to be truthful with what you feel and give yourself fearlessly because in the Universe nothing gets lost and everything you give, you will get back.
