\*\*\*\*\* INTRODUCTION \*\*\*\*\*

The Solar Return is a chart calculated for the time that the Sun arrives at the exact position of the Sun in your natal chart. That happens once every year around your birthday, but at a different time each year. This chart is calculated for the time of the Sun's return this year and marks the principal events for the year from birthday to birthday. This report also gives the location of your Solar Return. From this, it can be determined that some places are more favorable than others. With the aid of more than one report you could analyze the changes that are produced in the Solar Return Reports, choosing from different locations where you would want to spend the day.

This report essentially is divided into two parts. The first part analyzes the general external conditions of the year: opportunities and problems that could occur in different areas. For the benefit of students of astrology, the influence of the Ascendant and Midheaven of the return are described as well as that of the Sun and Moon.

The second part analyzes the twelve astrological houses, marking specifically in what area of your life the various astral influences will be manifested, emphasizing your probable responses and inner changes. This section analyzes the position of the solar houses on the natal houses, the planetary conjunctions, and the location of the planets in the houses. You will be given a description of the most important matters derived from the placement of the planets in the houses, which are outlined in the text for each of them.

In some cases you will find contradictions. A planet may be beneficial in a certain area, while others may indicate the opposite situation. This means that you could have two types of possible situations during the year. For example: a lover's quarrel and a following reconciliation. To get the most out of this report, it will be necessary to use your own logic and intuition, fitting the descriptions outlined here to your own particular case.

The objective of this report is to offer you a practical guide that helps you to analyze this year's prospects and to learn from them using your free will.

\*\*\*\*\* FIRST PART \*\*\*\*\*

**Chapter 1:  
General characteristics of the year. The external conditions.**

*Solar Return Ascendant Sagittarius :*

This is a period of expansion, personal growth and general good luck. You will feel a desire to expand your sphere of interest beyond that with which you are familiar. Your idealism will also increase, and you will have a strong interest in the fields of religion, philosophy, law, metaphysics, and in advanced science. You will draw people to you who are positive and helpful.

Your desire for independence will be strong, along with a desire to travel and become acquainted with distant lands. If you have been thinking about taking a vacation, this is a good year to do it. You will carry out your plans with great enthusiasm. And this year you think big! Nothing less will do.

You may feel discontented and restless with your normal, daily routine. There will be a tendency to exaggerate, to be overly optimistic, and to be so preoccupied with the outcome that you ignore any potential dangers. You will have faith in yourself and your plans, but there is a risk of making mistakes that you will later regret if you do not plan well and pay attention to necessary details. Be positive but realistic!

If you are by nature quite serious and reserved, this year you will surprise everyone. You will become more talkative and spontaneous. If you are normally outspoken and friendly, these traits may be even more emphasized. But regardless of your basic temperament, good humor will prevail and you will find ways to resolve any problems you may encounter.

You may be attracted to adventure and conquest. The new and unusual will appeal to you, especially if it involves a degree of risk or danger. You should be careful not to go overboard in your search for excitement. This spirit of adventure could bring you into contact with new people, cultures, and languages. You could be involved in a light-hearted romance that may or not last after the year is over.

Under the influence of Jupiter, there is a tendency to gain weight, particularly in the hips and thighs. Therefore, you should be more than usually careful about your diet. And, of course, getting a lot of exercise is desirable.

You are likely to meet some interesting people who will stimulate your intellect and expose you to new and exciting ideas. They also will encourage you to spread your wings and travel. This could be a social year for you where you can go places and do things you have never considered before. If you are single, you will have the opportunity to meet other unattached people. One of them could become important to you. However, the relationship will probably not turn out to be long-lasting. If you are in a committed relationship, you might feel a little restless with the restrictions that it places upon you. One solution is to bring the new friends you make home to meet your partner. This is certainly a year when you can explore and grow in mind and spirit.

*Solar Return MC Libra:*

It will be possible this year to find the balance you long for. You will work tenaciously and persistently to materialize your goals. Diplomacy and your gift for sociability will go a long way toward achieving success in whatever you do this year. Overhasty actions and decisions without forethought will interfere with your progress.

It will be important to think before you leap and plan your work carefully and calmly.

There is a possibility for romantic problems to occupy your mind a lot, which may interfere with your professional life. Deal with this by keeping your personal and professional life separate and don't waste your energy on it. If you can achieve emotional balance, you will be stronger in everything you do, but don't rely on others in order to achieve your personal success.

This influence favors working in groups to accomplish your goals, finding a solution to any legal problems you may have, and reconciling any differences you still have with others. It is important that you overcome and heal any bitterness or hurts you may have experienced in the past which might be standing in the way of your progress.

If your work is related to the courts, public relations, diplomacy, or some artistic form, you will have a year of progress and professional satisfaction. As a matter of fact, regardless of the kind of work you are involved in, you will find more harmony and balance than before.

However, this influence could also generate strong tensions within your home. The principal cause of the disagreements and arguments will come from others wanting to impose their authority on you. Fire also could be a threat now, especially if similar indications in this report indicate it. You should take the necessary precautions to insure your safety.

## **Chapter 2: Astrological influence of your personality.**

### *Sun in 11th house:*

This solar influence increases your social life, and your circle of friends should widen. These people will have a positive influence on you. Existing friendships will also be strengthened and will be a great support to you during this year.

You will feel a desire to join groups and participate in group activities with people who have the same interests. You will find yourself depending on friends to help you carry out your projects and plans. However, if there are other indications negating this, you will find that friends you counted on might not be there for you as you had hoped. Or you might find that the groups you have joined and are participating in are actually not positive influences but are wasting your time with useless activity.

You will develop new goals and objectives during this year. You will also be more idealistic. You will have increased understanding of those you work and play with. The first half of the year will be more a time for thinking and planning, while during the second half you will begin to activate and carry out your goals.

A special friend's offer of support and dedication may be instrumental in the achievement of your goals.

### *Sun sesquiquadrate Uranus:*

You will be very nervous and impatient during this year. You will get tired of your daily routine which could cause you to make quick and erroneous decisions. It is important that you moderate your impulses and act intelligently. You will require more freedom of action and you may become short and abrupt with people who interfere. You should try to direct your energies consciously, because reacting explosively will only complicate matters.

You also could be prone to accidents involving speed or electricity. Drive carefully. It will be very difficult to remain calm and tranquil during this year.

### **Chapter 3: The emotional world.**

#### *Solar Return Moon in Scorpio :*

Your emotions will be very intense and profound during this year. You will live each moment with great emotion and your reaction to events will be strong. If by nature you are a calm person, you will feel more anxious and uneasy during this time. If you are inclined to be restless, it will be necessary to look for creative outlets for the extra energy that you will feel.

You will express your affection more strongly than usual. This influence also could increase your impatience with what you see as the stupidity of others. You will also find yourself being more possessive with those close to you. If you are in a committed relationship, you will try to dominate him/her and will want to be with him/her all the time! Try to control yourself and keep your jealousy in check. Your partner could feel like he/she were being suffocated by your demands to be with this person all the time. It is important for you to know how to control your impulses so that you don't create arguments with your partner.

The relationship with your mother, or with other women who have certain power in your life, could be very difficult during this year. There could be frequent disagreements and a tendency to want to impose your ideas on each other. You won't let anybody intimidate you and will respond aggressively to everyone who limits your freedom. If you were attacked or invaded, your reactions could be rather violent.

You could be inclined to take more risks in your work and to respond with great energy and intensity. Your investigating spirit will surface and you could become interested in delving into the secrets of others or into life in general. Your intuitive gifts will be more pronounced and you could have psychic or paranormal experiences.

This influence could increase fertility in women, although it also could indicate female disorders. In either case it would be advisable to pay special attention to the reproductive area and use moderation in sexual activity.

#### *Solar Return Moon in 11th house:*

This year will be very good for social and group activities, especially those that are geared toward humanitarian causes. Your social life will pick up considerably and you can count on establishing new friendships, especially with women. In spite of the popularity that you will have, relationships formed at this time might be fleeting. Only some of them can be counted on to endure. Select your friends carefully and don't waste too much time with people who cannot be a positive influence on you. If you are involved in politics, you will have a very favorable year.

You also will develop new ideas and projects that will be carried out in the future. However, you should plan carefully and logically because you could be likely to change your mind, depending on your mood of the moment.

If you have children who are not your own (foster children or step children), you will be inclined to dedicate more time to them. Your desire for family harmony will increase and will affect many facets of your life.

#### *Moon conjunction Saturn:*

You will tend to hide your emotions and will probably have an increasing desire to be alone and spend more time in isolation. You could have frequent moments of depression and pessimism. You will look at the world around you in a more serious way. It will be important to maintain as positive an attitude as you can and not give

way to the negative feelings.

Domestic problems will seem too heavy for you to deal with. You will tend to be very discouraged and not know what to do about it. Don't expect too much help or approval from anyone in your home. You will feel that you are not receiving support from anyone, whether or not this is actually true.

The truth is that you may be more emotionally detached than usual and may react to imagined slights or insults. You could also have undefined, unexplained feelings of guilt or dissatisfaction. Your past can haunt you now and any previous, unresolved romantic involvement can seem even more serious than it is. This will stand in the way of your moving ahead in your life. You should confront the parts of your yourself that need healing at this time and concentrate handling your emotions in a positive way.

*Moon trine Neptune:*

You will find your imagination becoming stronger during this time. If your profession involves artistic or creative activity, you will have a year of success and profit. Your sensitivity and your degree of perception will also increase. You will become more intuitive and may have premonitions about the future which will turn out to be right. You should follow the dictates of your inner voice.

You will show an agreeable and caring attitude toward others. It will be relatively easy for you to put yourself in the place of another person and understand their problems, which will result in your becoming more cooperative and sensitive to others. The sensitivity will also extend to your home environment, where you will find that your spiritual ties will strengthen, especially with your mother or other women who are close to you. You will feel the desire to help others, especially those who are more unfortunate than you, and you will be more selfless during this year.

On the other hand, you could be more receptive and more easily influenced than at other times in your life, and it will be important that you surround yourself with positive people. Your emotions will be more intense, and you will be more spiritually oriented. You will search for a closer contact with your divine inner self. You will find that you can benefit greatly through the practice of prayer or meditation.

Your imagination and your pleasures will be more refined. You will feel more romantic and loving, which will lead to relationships which will be based on your ideals and dreams. You will seek out more evolved, spiritual people to relate to during this time and will find more inner peace. You will also be drawn to spend some time near water.

*Moon sextile Mars:*

You will show great vigor, vitality, and enthusiasm for taking action during this year. You will be very quick-witted and will always know when to take action. You will be efficient and fast-moving, when necessary. Your trust in yourself will increase along with faith in your own opinions, which will attract others to you. You will be very convincing and will earn the support of the public in general. You could become a leader during this year.

You will begin several projects and can rely on the necessary energy to carry them out. Be constant and don't deviate once you have initiated a project. You will be able to rely on the support of your family, especially your mother and other women in your environment.

You will be intense and full of positive feelings. You will radiate enthusiasm, ambition, and courage. Physically, this influence is so beneficial that it will give you a high level of vitality, energy, and vigor. You will recover very rapidly from any illness.

This influence impels you to dynamic action and it would be a very good year for setting many goals. Remember that your active participation is necessary and you should not wait for others to improve your life, because now is the time for you to take action.

*Moon semisextile Mercury:*

You will become very imaginative and romantic. This is a year to express your feelings either orally or in writing. You will be very perceptive and intuitive which will help you to easily understand and solve any problems you encounter. Your suggestions and advice will be accepted as being very useful by the people you associate with.

*Moon semisextile MC:*

You will have a favorable year for your business or your profession. The contact with the public will be very beneficial and your popularity will increase. You will probably participate in some group activities and will also have the possibility of taking some business trips. Your emotions will be in tune with your conscious intentions, which will allow you to direct your energy constructively.

*Solar Return Moon Conjunct natal Neptune:*

Your relationship with the public in general, especially with women, will heighten your imagination and creativity. You could become confused by the emotional demonstrations of others. Your relationship with family members, particularly your mother, could burden you and give you less time to concentrate on your personal matters.

In a man's chart, this influence could cause him to be deceived by a woman. This could range from a little white lie to a betrayal of some kind.

In the chart of a woman, it could create fears about your own female functions, especially if you have not had any children yet.
